GERI GERONIMO R. SAÑEZ is the Chief of the Hazardous Waste Management Section-Environmental Quality Division of the Environmental Management Bureau of the Department of Environment and Natural Resources of the Philippines. He graduated with a degree of B.S. in Chemical Engineering at Adamson University and earned units on his M.Sc. in Environmental Engineering and completed the Certificate Program on Toxic and Hazardous Waste Management at the University of the Philippines (Diliman). He has also completed the short course on Hazardous Materials and Chemicals Management at the University of Applied Sciences Basel - Institute of Environmental Technology in Muttenz, Switzerland and the 17th Annual Contaminated and Hazardous Waste Site Management Course (Theory, Practice, and Outdoor Field Demonstrations) in Toronto, Ontario, Canada.

As Chief, he supervises the implementation of Title III of the Implementing Rules and Regulations of Republic Act 6969 otherwise known as Toxic Substances and Hazardous and Nuclear Wastes Control Act. He also oversees and supervised programs and projects such as the implementation of foreign-assisted projects such as the Integrated Persistent Organic Pollutants Project (Contaminated Sites Management-Characterization, Remediation and Control), Ratification and Early Implementation of the Minamata Convention on Mercury in the Philippines, Non-Combustion Technologies for Destroying Persistent Organic Pollutants Project, Chemical Accident Prevention & Preparedness Flexible Framework Project, Management of Mercury and Mercury-Containing Waste Project.

He has represented the Philippine Government in Intergovernmental Negotiating Committee (INC) meetings and workshops on Mercury, Conference of the Parties (COPs) of the Basel, Rotterdam and Stockholm (BRS) Conventions, Organization for Proliferation of Chemical Weapons (OPCW) Chemical Safety and Security, US Homeland Security Investigations and other international network meetings and workshops. He was among those recognized by the Secretariat of the BRS Conventions as a "BRS Practitioner" in the recently conducted BRS COPs in Geneva last 4 to 15 May 2015. He has served as the Vice-Chair for Asia and the Pacific Region of the Implementation and Compliance Committee (ICC) of the Basel Convention. Recently, he was recognized by the Adamson University Alumni Association, Inc, as one of the featured alumni for the month of April 2019.

He is a lecturer in UP's Certificate Program for Toxic and Hazardous Waste Management and has served as Resource Person in different organizations and institutions' trainings, seminars and workshops on, among others, chemicals and hazardous wastes management, hazardous wastes operability and response (HAZWOPER), emergency preparedness and response planning, incident command system (ICS), etc.

A former Research Assistant who rose from the ranks and became a Section Chief, Mr. Sañez also served as Park Manager of the Philippine National Oil Company Petrochemical Industrial Park in Bataan. His expertise includes hazardous waste management, environmental impact assessment, chemical emergency response and preparedness, pollution prevention, isotope hydrology, and risk assessment.
